

# Forms of Government Scenarios

SS.7.CG.3.1

# Scenario #1

**In the 20th Century two World Wars were fought to prevent the fast expansion of this form of government. Most of those who started World War I were the few remaining absolute monarchs of Europe, while in World War II it was the elected dictators of Germany and Italy.**

## Scenario #2

**Some Native American tribes organized themselves by having all male adult members of the tribe vote for any proposed laws or changes.**

## Scenario #3

**In the 20th century, kings and queens have generally become symbols of national unity, while real power has been moved to constitutional assemblies. Today, this form of government is mainly in place in the Middle East.**

## Scenario #4

**An example of this form of government emerged in 1215 in England when a small group of wealthy nobleman forced the king to share power. This moved the country from one person holding all of the power to a small group holding power.**

## Scenario #5

**An example of this form of government is the United States. Citizens elect representatives at the national, state, and local levels of government to make decisions on their behalf.**

## Scenario #6

**In 1979 the Iranian Revolution overthrew the royal Pahlavi dynasty and established a religious cleric Ruhollah Khomeini as Supreme Leader of Iran and formed the Council of Guardians to veto un-Islamic legislation and ensure government officials were devout.**
